PROJECT INSTRUCTIONS

· There will be 1 project in the course.

- 5 Bonus Points, for in-time submission and approval of ALL home-works. In addition, 5 bonus points for in-time submission and approval of the project.

- In case of Late Submission of any Homework, No bonus points will be awarded.

· The project "must be" done in Groups of two students.

- We will not accept any project done by only one student

- Upon late submission of Project, Bonus points for the in-time submission will not be granted

- Project should be submitted before11:59 pm on respective Submission Date. Otherwise it will be considered Late Submission.

- Apart from submitting the project, you are also required to give a demo/presentation in available time-slots to get your Project approved.

- **You need to get your Project approved (with or without bonus points) to pass the course.** For instance if you can't submit (or get approved) your Project in due date then you won't get bonus points but you still need to get your project approved to pass the course in the end.
